

# Zonta Singapore – Project Pari Fund

The Zonta Club of Singapore has established the Project Pari Fund to reach young girls from Secondary 1 to 5 who need financial assistance. Each beneficiary receives S\$50 monthly as pocket money to help her with basic expenses like meals and transport. The beneficiaries will continue to receive this financial support for the duration of their Secondary School education as long as they need it.

With close collaboration between Zonta Club of Singapore and their schools, the beneficiaries are chosen based on their financial background, positive attitude and willingness to learn. In addition to financial assistance, the beneficiaries can participate in workshops and other activities organised by the Zonta Club, which are designed to instill a sense of self confidence and impart life skills such as financial management and personal grooming.

Join us to make a difference in the lives of our beneficiaries. A donation of S\$600 will help one girl for a year.

Thank you very much for your support.
